

RULES OF CONDUCT

Most employees do not need a list of rules or regulations to guide their personal conduct. Normally, employees respect the person and safety of other people, and follow directives from proper authority. As the potential for serious injury or death is present in many aspects of the jobs we provide, it is imperative that employees be free of substances of abuse during working hours. For this reason, applicants for employment with PSI are required to submit to a Urine Screen for substances of abuse as a condition of employment.

The Company reserves the right, at its sole discretion, to test employees on a random, periodic, or blanket testing basis. At its sole discretion, PSI may test employees who provide reasonable suspicion that the employee is impaired by drugs or intoxicants. A drug test requested or administered by a client company or its agent, or an admission of consumption of drugs or intoxicating substances to a client company or its agent, will be considered as a drug test requested or administered by PSI or its agent, or as an admission of consumption of drugs or intoxicating substances to PSI or its agent. If an employee feels his/her results are inaccurate, at his/her own expense the employee may be retested immediately.

The results will be reported only to individuals designated by the company and will be held in the strictest of confidence by all personnel who have access to the information. This information may be shared between the client representative and a PSI representative. The information gained from the testing will be used in the overall evaluation of the fitness of the applicant for the position for which they are applying.

If an employee test is positive (Opiates 300+ ng/ml, Amphet/Metham 300+ ng/ml, Phencyclidine 25+ ng/ml, Cocaine 300+ ng/ml, Cannabinoids 15+ ng/ml, Barbiturate 200+ ng/ml, alcohol any), or fails to pass a test for substances of abuse, or admits to consuming substances of abuse, he will be subject to immediate discharge. In the event of discharge the individual may apply for employment after 90 days.

Possession, use of alcohol or illicit substances, or possession of drug paraphernalia on any work site, client premises, or in client vehicles is strictly prohibited. Violation of this rule will result in dismissal of the employee from the contractor's work-site and will subject the employee to discipline up to and including discharge.

When appropriate PSI may, at its sole discretion, grant a leave of absence for the purpose of treatment and rehabilitation to an employee who makes his alcohol or drug addiction known to the company.

I have read and understand the PERSONNEL POLICY which outlines and explains the procedures and terms of the URINE SCREEN FOR SUBSTANCES OF ABUSE and agree to abide by the policy.

I hereby authorize PSI and the licensed laboratory selected by PSI to perform a Urinalysis on a urine specimen provided by me to test for drug use. I also give my permission to this laboratory to release the results of this drug test(s) to PSI or its agents. I understand that PSI will treat the information confidentially and may in its sole judgment utilize the report on the results of this drug test(s) to determine my suitability for employment. Additionally, I understand and agree that if the test results indicate apparent drug use, PSI may reject my application for employment, and that if I am employed, my employment may be promptly terminated.

Mid Oregon Personnel Services, Inc. Sick Leave Policy
----- For Temporary and Leased Employees Only -----

This Sick Leave Policy is adopted by Mid Oregon Personnel Services, Inc. (the "Company") starting January 1, 2016. Sick leave provided pursuant to this policy is exclusively for the Company's temporary and leased employees; no other employees shall be eligible to receive sick leave pursuant to this policy. Temporary and leased employees are not entitled to receive any sick leave or other paid time off except as provided in this policy.

Under this sick leave policy, an employee accrues sick leave that the employee may use for any purpose allowed under Oregon's Sick Leave Law ("OSL"). Those purposes include, for example, leave for: an employee's own mental or physical illness, injury, or health condition, or that of certain family members; any purpose covered by the Oregon Family Leave Act (which include leave for the birth of the Employee's child or placement of a child for adoption or foster care; to care for a family member with a serious health condition or the employee's own health condition; for pregnancy disability or prenatal care; to care for a sick child; and for bereavement leave); domestic violence, stalking, harassment or sexual assault; preventive health and dental care; or public health emergencies.

Sick leave will begin accruing from the employee's date of hire and may not be used prior to accrual. Additionally, no employee may use accrued sick leave until after the employee has completed 90 calendar days of employment with the Company.

Accrual rate: Each eligible employee accrues 1 hour of sick leave for every 30 hours that the employee works, up to a maximum accrual of 40 hours in each year of employment. Once an employee has accrued 40 hours of sick leave in a year of employment, the employee shall cease to accrue additional sick leave until the next anniversary of the employee's employment with the Company, at which time the employee shall once again begin accruing sick leave.

Carry over: An employee who has accrued but unused sick leave at the end of each year of employment with the Company may carry over into the following year up to 40 hours of accrued but unused sick leave. Any accrued but unused sick leave in excess of 40 hours automatically lapses at the end of each year of employment and may not be used by the employee thereafter.

Annual usage cap: An employee may not use more than 40 hours of sick leave in any year.

Requesting sick leave: Employees must submit their sick leave request as soon as practicable and, except in the case of an unforeseeable need for such leave, no later than ten days in advance of the date on which the leave is to begin. For foreseeable uses of sick time, employees must make a reasonable attempt to schedule their use of sick time in a manner that does not unduly disrupt the Company's operations. Requests for sick leave where the employee has accrued sick leave remaining, and where the request is covered by OSL, however, shall not be denied.

The Company understands that, from time to time, situations arise in which meeting the requirements for advance notice is not possible and will make exceptions as needed and as the Company is able to do so. Consistent or other failure to meet these notice requirements, however, may lead to disciplinary action with respect to the employee.

Termination of Employment: On termination of an employee's employment the Company, the employee's accrued but unused sick leave time will automatically lapse and the value of that accrued but unused sick leave time will not be paid to the employee. However, if an employee becomes reemployed with the Company within 180 days of the date of termination of the employee's employment, then, on reemployment, the employee shall automatically be granted any accrued but unused sick leave time that the employee had as of termination.

No Retaliation or Discrimination: The Company strictly prohibits retaliation toward any employee for inquiring about the employee's entitlement to leave that is covered by the OSL, submitting a request for such leave, taking leave pursuant to OSL to which the employee is entitled, participating in an investigation, proceeding, or hearing relating to OSL, or invoking, in good faith, any provision of the OSL law. Employees who believe they have witnessed or experienced any such retaliation or discrimination should contact the owners of the Company.

Influencing Attitudes for Safety

Do Attitudes Matter?

Attitudes have a great deal to do with how staff members perform their daily tasks. Some types of attitudes are conducive to safety and some types lead toward accidents and injury.

Attitudes- The Bad Ones:

- i Safety is a matter of chance- I will get hurt when my number comes up.
- i It is necessary to take chances to get my job done.
- i If I know what I'm doing, I can take risks and get away with it.
- i This organization does not really care about safety.
- i My coworkers will not respect me if I am always being careful.

Attitudes- The Good Ones:

- i Accidents have causes- they can be prevented.
- i Accidents interfere with production- safe work is efficient work.
- i The organization is truly interested in safety and so are the people who work here.
- i My coworkers will respect me if I show good judgment and work safely.
- i Working safely is a mark of skill. We are proud of our safety record.

There are many other attitudes for safety. If we accept and express positive attitudes for safety those around us will do the same and safety will become a part of our daily conversation.

Create a Culture of Safety:

Attitudes grow and, like anything that grows, they flourish best in favorable environments. If we create a good environment for safety and working for safety, everyone will be influenced by what they see.

New Staff are strongly influenced by the behavior of the veteran workers and supervisors. Be sure they are given the correct direction right from the start.

Attitudes for safety will grow if people take part in discussions about how accidents can be prevented.

The Culture of MidOregon Personnel

At Mid Oregon Personnel, we care about the safety, health and well being of our employees. We value the contributions our employees make toward our success. We support the communities in which we operate, and we value honesty, integrity, and teamwork.

We Value Our Employees

Our business operates with a goal of zero damage to people, property and product. It is our policy to provide safe working conditions. At Mid Oregon Personnel, everyone shares equally in the responsibility of identifying hazards, following safety rules and operating practices. All jobs and tasks must be performed in a safe manner, as safety is crucial to the quality of our services.

Safety Policy

At Mid Oregon Personnel, no phase of the operation is considered more important than accident prevention. It is our policy to provide and maintain safe working conditions and to follow operating practices that will safeguard all employees. No job will be considered properly completed unless it is performed in a safe manner.

Mid Oregon Personnel is concerned about the health and good work habits of its employees. In the event you are injured or unable to perform your job, we want to help you obtain the best treatment, so you can return to your regular job as soon as possible.

Zero Tolerance, Substance of Abuse Free Workplace

The company has a vital interest in maintaining a safe, healthy and efficient workplace for the benefit of its employees, clients and the public. The use of performance impairing drugs can cause avoidable injuries to employees, damage to property and productivity losses. In our efforts to provide a safe workplace, we have a substance abuse policy. Reporting to work under the influence of any intoxicant, legal or otherwise, is prohibited. The use, possession, transfer or sale of illegal substances, alcohol, or any other substances which impair job performance or pose a hazard to the safety and welfare of the employee, the public, or other employees is strictly prohibited and may result in immediate disciplinary action up to and including termination.

Return to Work

If an employee is injured on the job, our goal is to assist in obtaining medical treatment and return the employee to work as soon as possible. Our employees also have responsibilities for notifying us of their condition and providing appropriate information to assist in the Return to Work process. Through this joint effort, recoveries are faster and employees return to productive work environments sooner.

I have read Mid Oregon Personnel's Company Culture statement and understand the commitment to the safety and health of employees and customers/clients.

Safety Orientation Checklist for New Employees

Safety Mission Statement

Mid Oregon Personnel Services has a strong commitment to ensuring the personal safety of all of its employees. At Mid Oregon Personnel we believe safety begins with you, the individual employee. If you assume primary responsibility for your own safety, you will not be injured. This attitude is pivotal to the success of any safety program in any company to which you are assigned.

Injury Reporting Policy:

Worker has been told to notify his/her supervisor immediately after receiving any injury that breaks the skin or causes serious pain. Injuries causing less pain are still to be reported if the pain is still present at the start of the next shift. In both cases the worker will contact Mid Oregon Personnel as well. Employee agrees to notify Mid Oregon Personnel before seeking medical attention for any work related injury unless it is a medical emergency. **Failure to notify Mid Oregon Personnel before seeking medical attention for any work related injury, unless it is a medical emergency, will result in termination.** _____

General Safety Rules:

Worker has received, read, understands, and agrees to follow the policies of the Rules of Conduct and company Handbook including the general safety rules.

Energy Control (Lockout/Tagout):

No employee is authorized to work on any equipment without specific training about that piece of equipment. This training must include instruction about de-energizing the machine and isolating it from its power source.

Chemical Hazards:

The Host employer will have a list of any hazardous chemicals. There will be a Material Safety Data Sheet for each chemical. The MSDS identifies the chemical, the specific hazard, and what to do if exposed to the chemical. Worker must ask about such chemicals and get instruction about how to read those specific MSD sheets.

Various Hazards: **Hearing Conservation.** Basically if you have to raise your voice to communicate, you need hearing protection. Ask your supervisor. **Fall Protection.** If your feet are more than four feet off the ground, you need fall protection. This protection will generally be job specific. Ask your supervisor. **Personal Protective Equipment.** This will vary from job to job. Ask your supervisor what is required. **Generic Hazards.** Think in terms of what job you are sending the employee to. E.g. in a mill, rings, bracelets, long hair and baggy clothes are dangerous. Is there need for specific footwear, etc.

Policy #6

DRUG AND ALCOHOL POLICY

- A. **Purpose:** The use of alcohol or drugs, or being under the influence of alcohol or drugs in the workplace:

1. Creates a grave risk of harm to the health and safety of our employees, our customers and the public in general;
2. Severely impairs the efficient and proper administration and operation of our business;
3. Causes irreparable harm to our hard-earned image and reputation for trustworthiness, reliability and honesty;
4. Prevents our employees from performing the functions of their job.

The purpose of this policy is to prevent these serious problems by ensuring a workplace free of alcohol or drug use, thus assuring greater safety for our employees, customers and the public at large.

- B. **Policy:** The following conduct is strictly prohibited and will result in immediate disciplinary action, up to and including termination:

1. Reporting for work under the influence of alcohol or drugs;
2. The use or possession on Company premises or in Company vehicles of alcohol or drugs; or
3. The sale, purchase, or other transfer (whether for sale or not) on Company premises or in Company vehicles of alcohol or drugs.

- c. **Required Testing (all States except Montana):** The Company will conduct testing for the presence of alcohol and/or drugs at the following times for all employees:

1. Immediately following a conditional offer of employment;
2. Upon reasonable suspicion that an employee is under the influence of alcohol or drugs.

3. Prior to an employee's return to work following their successful completion of a professional assistance program.
 4. For maintenance of safety for employees or the general public.
 5. As a criteria for consideration for promotion to a store management position (all States except Montana and California).
- D. **Random Testing (all States except Montana and California):** The Company will conduct testing for the presence of alcohol and/or drugs randomly (and without prior announcement) under non-discriminatory testing methods established by the Company. All Les Schwab employees will be subject to such random testing.
- E. **Random Testing (California only):** For employees in California only, the Company will conduct testing for the presence of alcohol and/or drugs randomly (and without prior announcement) under non-discriminatory testing methods established by the Company, and as provided in this paragraph.
1. The Company employs various persons who work in "safety-sensitive" positions as listed below. If their judgment at work is impaired by the influence of alcohol or drugs, the performance of their duties could cause serious, if not catastrophic, personal injuries or death to customers, employees, or the public at large. Accordingly, in addition to the Required Testing identified above, each employee in such "safety-sensitive" classifications will be randomly tested to assure they are not working under the influence of alcohol or controlled substances. These "safety-sensitive" positions include all persons performing or supervising the servicing of customer vehicles or working with equipment in the service bays as follows:
 - a. Manager
 - b. Area Store Assistant Manager
 - c. Assistant Manager
 - d. Brake & Alignment Technician
 - e. Sales & Service
 - f. Sales & Service Professional
 - g. Fleet Tire
- F. **Testing Procedures:**
1. All testing will be administered by an independent testing laboratory, either at the workplace in a private location or at the testing laboratory. In either event, an employee advised to report for such testing must report for such testing at the scheduled date and time, or the failure to appear for such testing will be grounds for discipline, up to and including termination.

2. The employee may obtain his or her own alcohol and/or drug test from any independent testing laboratory (provided such sample is taken within 24 hours of obtaining the result of company-ordered testing) and present the results of such testing in connection with the Company's employment decision related to the validity of such testing. The Company may consider the results of such employee-initiated testing, but is not required to accept the validity of results of such testing.

G. **Test Results:**

1. If any applicant or employee subject to any testing under this Policy refuses to participate in testing, or attempts to switch or adulterate any testing sample, such person, if an applicant, will be ineligible for employment. If any employee refuses to participate in testing, or attempts to switch or adulterate any testing sample, such employee will be subject to immediate disciplinary action, up to and including termination.
2. If the results of a test administered to an applicant following a conditional offer of employment establish that he or she is under the influence of alcohol or drugs, such applicant will be ineligible for employment with the Company.
3. If the results of a test administered to an employee establish that he or she is under the influence of alcohol or drugs, such employee will be subjected to immediate disciplinary action, including termination.

H. **Notice:** All new employees will receive notice of this Policy in connection with any offers of employment.

I. **Impairing Prescription Medications:** Employees may not report to work while using potentially-impairing prescription medications, unless the employee's attending physician has advised the employee the prescription medication will not affect the employee's ability to work safely. Working while under the influence of an impairing prescription medication may result in disciplinary action up to and including termination.

J. **Opportunity for Re-employment:** Employees who are terminated for any violation of this Policy may one-time apply for re-employment as a new applicant one year following the date of termination. If the employee is terminated again for any violation of this Policy, the employee will forever be barred from re-employment.

K. **Forfeiture:** Employees who are terminated for any violation of this Policy will, where permitted by law, forfeit all benefits accrued pursuant to the Les Schwab Dividend, Les Schwab Bonus and Les Schwab Employee Benefits Plan.

L. **Right to Search:** The Company will have the right, upon reasonable suspicion, to search employees and their personal property for alcohol or drugs while on the Company's premises or in the Company vehicles. Refusal by an employee to submit to such search will subject the employee to immediate disciplinary action, including termination. In addition, all desks, lockers, machines and Company purchased items

remain the property of the Company, and the Company will have the right to search them at any time.

- M. **Employee Assistance:** Any employee may one-time voluntarily disclose that employee's alcohol or drug dependency to the Company and seek professional assistance to overcome such dependency without being in violation of this Policy so long as the employee was not already determined by the Company to be in violation of this Policy. Employees who seek such professional assistance will be eligible, if otherwise qualified, for the Company's paid absence program and all applicable benefits under the Company's medical plan. Employees may obtain information regarding employee assistance programs from the Employee Benefits Department. For purposes of this Policy, an employee seeking professional assistance pursuant to a court order will not be considered as voluntarily seeking professional assistance. Employees who successfully complete a professional assistance program will be required to submit to an alcohol and/or drug test prior to returning to work. If the test results establish that the employee is under the influence of alcohol or drugs, such employee will be subject to immediate disciplinary action, including termination.

 5. Testing means the collection and analysis of samples necessary to determine if an employee is under the influence of alcohol or drugs. All testing procedures will be established by the Company. Testing may include, without limitation, urinalysis, and blood analysis.
 6. Professional Assistance means medical and/or psychological treatment for alcohol or drug abuse or dependency by a provider properly licensed to furnish such services. Treatment may be on an in-patient or out-patient basis.
- O. Guidelines for DOT-Regulated Employees: The Company will adopt and maintain drug and alcohol guidelines for employees who operate commercial vehicles in the course of their job duties ("**DOT guidelines**"). The DOT guidelines will apply to those employees who are covered by DOT regulations and are in addition to the provisions of this Policy. An employee's failure to comply with the DOT guidelines may result in disciplinary action up to and including termination of employment. From time to time the Company will review and amend the DOT guidelines as necessary to comply with DOT regulations.
